

**FY 13 Funding Allocations for Ak, WA, OR, ID**  
**March 11<sup>th</sup> 2013**

As a result of litigation and settlement agreements, the following needs have been identified by R10.

State	Funding Allocation	Project Description	Additional Comments/Notes
WA TMDL Pace CD(220,000)	20,000	Nooksack TMDL. High priority climate change pilot w Tribal Involvement. Tetra Tech has had technical lead through draft TMDL state; need TT to finalize document, assist with Response to Comments.	
	35,000	Soos Creek TMDL. Surrogate stormwater TMDL: Landscape model scenarios that will connect the biological targets with impervious cover.	
	165,000	Duwamish TMDL or Skykomish TMDL or French Creek & Pilchuck multi-parameter TMDL. EPA and Ecology have just received the draft deliverable on the Duwamish, and expect to make a decision on whether or not to take the next step on this project in May, 2013.	
AK Complete 2 TMDLs for FY 2014.	\$70,000	Crooked Creek Watershed: Site has a long history of placer mining. Funding for monitoring and sampling for turbidity, pH, DO, and temperature. Begin work on TMDL scheduled for June 2014.	
OR Mid-Coast Implementation Ready TMDL (CZARA SA)	\$57,000	Region 10 plans to use all this money on meeting facilitation needed to finish out the project for the Mid-Coast. However, the project has run into some significant challenges related to Feb 2012 OR WQS Litigation causing a delay in the TMDL.	
Revisions to Temperature TMDL (Temperature TMDL litigation)	\$50,000	If money is not used in the Mid Coast, then R10 would like to use it on revisions to a temperature TMDL.	
Revisions to Willamette Mercury TMDL (Temperature TMDL litigation)	\$50,000	If money is not used in the Mid Coast, then R10 would like to use it on revisions to mercury TMDL.
